Key Features

- The second edition of Textbook of Foundation Course and AETCOM is revised to refine and expand the content to meet the
- evolving needs of undergraduate medical education under the latest Competency-Based Medical Education (CBME) curriculum.
- The content is updated to make it more comprehensive and aligned with the latest guidelines and expectations for the Indian Medical Graduate (IMG).
- This edition is written in simple language and focuses on facilitating the formation of a strong foundation.
- Specific learning objectives (SLOs) and specific learning competencies, messages, and critical highlights for students are key features of this book. They will help the learners overcome the field's challenges and demonstrate the professional and humanistic attributes.
- The main topics covered in this book are as follows:
 - Roles of doctors in society
 - Doctor-patient relationship
 - Cadaver as the first teacher
 - Stress and time management, communication skills
 - Family practice, national health goals and policies, and healthcare delivery system
 - Basic life support, first aid, universal precautions, waste management, immunization, and documentation
 - Professionalism and ethics, professional and altruistic behavior, disability competencies, cultural competence, interpersonal relationship

Key Features

- The second edition of Logbook of Foundation Course and AETCOM is prepared for Indian Medical Graduates (IMG) as per the latest curriculum of Competency-Based Medical Education (CBME). It focuses on all the aspects of the Foundation Course and AETCOM modules.
- This logbook will help to maintain a record of activities and provide adequate feedback to the students about their understanding of the subject through: 450 multiple choice questions (MCQs) for assessing acquired knowledge and skills for a smooth transition to higher education to increase academic confidence and personal and professional growth.
- 150 short-answer questions to focus on the main components of the topics, enhance critical thinking, and test the retention of knowledge.
- Mind mapping and reflection on topic to develop critical thinking and problem-solving ability and facilitate active learning.
- QR code-based "eSmartQuiz—Online MCQ test" reinforces learning, assesses understanding and retention of concepts, and identifies areas needing further revision or clarification.
- This logbook will effectively assess the subject matter's comprehension for enhancing attention, critical thinking, and positive attitude in IMG.
